

ATT Online login instructions

Access by students at colleges and training centres

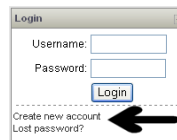

All the ATT learning material is available online to students and teachers. Centres that are registered can get one year of access for a very small per user payment.

- When payment is received (or order confirmed) an enrolment key will be supplied. Access lasts for 365 days from when the key is entered – but logins can be created anytime.
- To get the current key a 'tutor' should email enrolment@auto-training.co.uk. The key is only valid for a fixed time so students should enrol on all the required courses as soon as possible after the key is issued to them by the tutor.
- After creating a login, the tutor can email the same address to request promotion to 'teacher status', which gives monitoring and tracking rights as well as the option to move students into a specific group.

To gain access, staff and students just need to follow these simple steps:

1. Browse to www.auto-training.co.uk
2. Click the **Create new account** link
3. Enter the details requested in the box shown here. Your username and password can be anything you like (within reason!) but you must use your proper **name** and enter the **college** (or training centre) name correctly.
4. When you click the **Create new account** button an email is sent to the address you entered, which contains a link that takes you back to the site and confirms your details. You are now registered.
5. On the front page of the site, click on the course that you want to enrol on.

Ignore the payment option and enter the **Enrolment key** exactly as supplied to you by your tutor – click the button and that's it!
